Ron del Barrilito *est. 1880*

Every single bottle of Ron del Barrilito holds premium rum that has been crafted by hand using the same methods established in the early 1880's. Unlike other commercialized brands, Barrilito uses absolutely no artificial ingredients or coloring. Their rum is aged to perfection in vintage American White Oak sherry barrels here in Bayamón.

Don Q *Serrallés Distillery, est. 1886*

Don Juan greatly expanded the family business of sugarcane cultivation and founded the tradition of rum making in the Serrallés family. Using copper stills, he produced the first rum barrels that were under the name "Serrallés". Don Juan established the foundations for Puerto Rico as a leading country in the production of rum.

Tres Clavos *San Juan Artisan Distillers, est. 2011*

In their pioneering approach to Rum distilling in the Island, Pepe & Jose Roberto Alvarez rescued from near extinction sugar cane cultivars that we grow, mill and slow distill in our Charentais Single Batch French Copper Pot Stills. Handcrafted Ron Caña of exceptional quality infused with local tropical fruit, natural flavors and spices.

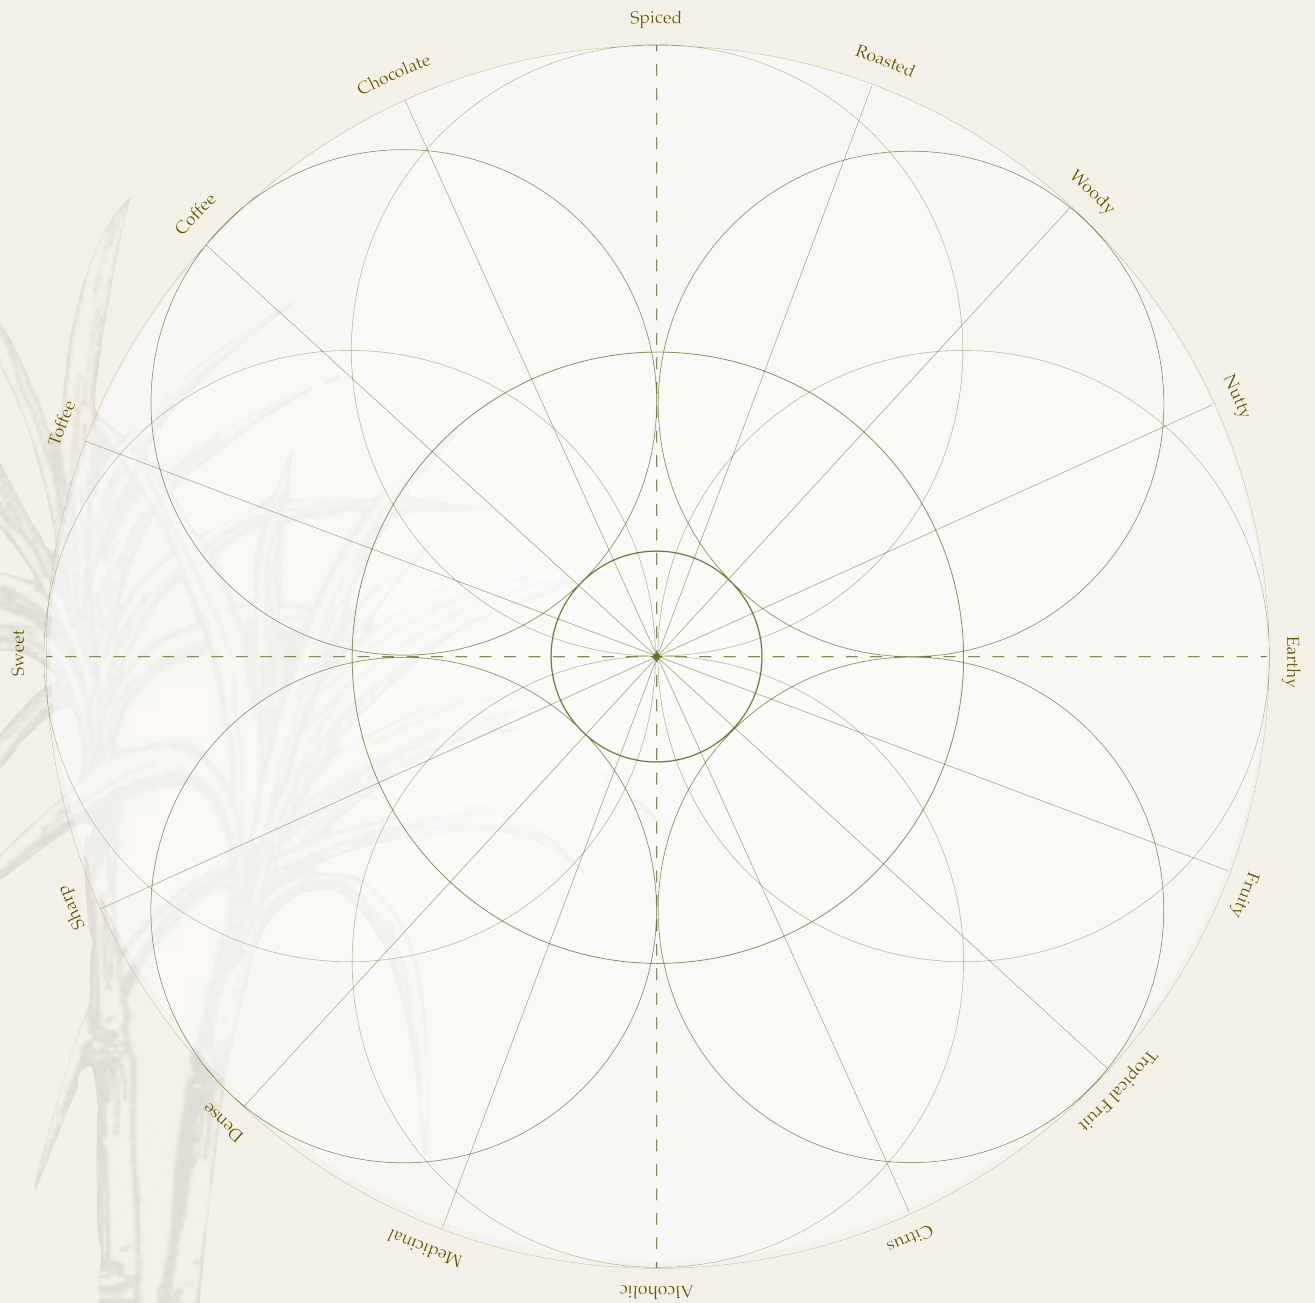

Bacardí *est. 1880 in Santiago de Cuba*

On the 4th of February in 1862, the Bacardí family, led by Don Facundo Bacardí Masso, bought a distillery in Santiago de Cuba. They threw away the rule book and made their own, unique blends with a reinvented rum-making process, one that changed the industry forever. For more than 60 years, Bacardí's production has been based in Puerto Rico.
